Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/17/2008 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-74, 79 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As to claims 1-74, 79, the original specification fails to support the newly-added limitation "wherein the energization of the receiver is not synchronized with the RF signal" (see the independent claims 1, 13, 24, 35, 46, 58).

Response to Arguments

4. Applicant's arguments with respect to claims 1-74, 79 have been considered but are moot in view of the new ground(s) of rejection.

Applicant states that the newly-added limitation "wherein the energization of the receiver is not synchronized with the RF signal" in independent claims 1, 13, 24, 35, 46, 58 is supported by the original specification, paragraphs [0040]-[0047] (see page 18 of applicant's response). The examiner, however, disagrees.

Paragraphs [0040]-[0047] cited by applicant does not disclose that "the energization of the receiver is not synchronized with the RF signal". On the contrary, the energization of the receiver is synchronized with the RF signal according to the original specification. The original specification at page 3 lines 14-16 states that "the receiver can be energized a second time after a rest period the length of which ensures detection in at least one of the time periods of a preamble pulse if a preamble has been generated". The original specification at page 3 lines 19-20 further states that "In any case, once a preamble is sensed, the receiver remains energized to detect the ensuing command signal". Therefore, the energization of the receiver is synchronized with the RF signal according to the original specification.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to NGUYEN VO whose telephone number is (571)272-7901. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward Urban can be reached on (571) 272-7899. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
